Professional Experience

Design Intern, Sift Stack - Designed 20+ reusable components for the Nebula Design System in Figma, a platform redesign supporting hundreds of mission-critical operators. - Created a library of Nebula components in the code playground, documenting usage logic and stylistic requirements and significantly increasing engineering efficiency. - Audited implementation bugs scoped to Nebula and created a dozen PRs to resolve stylistic misalignments to reduce engineering back-and-forth.	05/2026 – Present Los Angeles, California
Founding Designer, Toph - Designed and built an audit compliance tracker for farmers, saving them up to 100 hours per audit. - Tested my product on ~30,000 acres of farmland. - Conducted 20 user interviews for industry and user research.	01/2026 – 06/2026 Los Angeles, CA
Product Design Intern, July - Built website hosting collaborations with OpenAI and JPMorgan - Designed platform pages and cross-cutting features such as bulk actions in Figma. - Conducted UX research on a dozen customers and built a bulk actions feature based on interviews. - Designed a guerrilla growth campaign that landed calls with 3 of our largest enterprise leads (20% increase in ARR).	09/2025 – 02/2026 Brooklyn, New York
Brand Design Contractor, AfterQuery - Designed 3 of the company's first billboards located in San Francisco. - Worked alongside the growth team to establish brand guidelines.	01/2026 – 04/2026 San Francisco, California

Creative Ventures

Director of Design, LavaLab - Premier USC entrepreneurship club bringing designers, developers, and PMs together to build a startup in 10 weeks and pitch at Demo Day. - Elected Design Director; responsible for recruiting and teaching the next two cohorts of designers.	01/2026 – Present Los Angeles
VP of Marketing, Sigma Eta Pi - Managed content and marketing for a startup incubator and entrepreneurship society - Led a team of marketing directors to maintain club branding and drive 2x more applications than the previous semester.	05/2025 – 05/2026 Los Angeles
Founding Designer, Batchr - Designed and built Batchr, an all-in-one platform that helps restaurants manage inventory and production scheduling. - Led product research, development, and shipment in 3 months, launching to 8 stores.	01/2025 – 05/2025 Los Angeles
UI Designer, fires.help - Designed a website serving 3000+ citizens, providing access to fire relief resources, GoFundMe links, fire statistics, and volunteer opportunities during the Los Angeles fires. - Appeared in the Pasadena weekly newspaper.	01/2025 – 02/2025 Los Angeles

Education

B.S. Arts, Technology, and the Business of Innovation, Iovine and Young Academy Aims to pursue the intersection of design, technology, and business through industry partnerships and project-based learning.	08/2024 – 05/2028 Los Angeles
High School Diploma, Sonoma Academy Extracurricular involvement in Jazz Ensemble, Tri-M Honors Music Society, and the robotics team, <i>Ellipse</i>	08/2020 – 05/2024 Santa Rosa
